PROFESSIONAL SUMMARY

Full Stack Developer specializing in React.js, Next.js, TypeScript, and React Native, with hands-on experience in building web dashboards, mobile applications, authentication flows, API integrations, and database-driven features. Completed a 6-month full-stack internship at To Let Globe, contributing to a real estate platform. Also worked on confidential client projects involving fintech admin dashboards, Firebase-based mobile app features, AWS Cognito authentication, and REST API integrations. AWS Certified Cloud Practitioner with strong fundamentals in cloud and modern web technologies

TECHNICAL SKILLS

Languages: C++, JavaScript, HTML, CSS

Back-end: Flask, Restful APIs, Express , Node, Nest.js

Front-end: React.js, Redux, Bootstrap, Tailwind CSS , Next.js, Typescript, React-native.

Database: MySQL, PostgreSQL, MongoDB

Cloud & DevOps: AWS, Git, GitHub,CI/CD

PROFESSIONAL EXPERIENCE

Full stack developer (Freelancer) | Self Employed

Jan 2025 - Present

- Built responsive web and mobile applications using React.js, React Native, Next.js, TypeScript, and Tailwind CSS.
- Developed admin dashboards, mobile app screens, authentication flows, and API-driven user interfaces for client projects.
- Integrated REST APIs, MongoDB, Supabase, OpenAI API, and authentication systems across different projects.
- Worked on fintech-related features including role-based access control, transaction management, wallet workflows, and audit log modules.
- Collaborated with clients/senior developers to understand requirements, fix bugs, improve UI, and deliver maintainable code.
- Used Git, GitHub, Docker, and deployment workflows for project development and delivery.

Full stack developer Intern | To Let Globe

Jul 2024 - Dec 2024

- Contributed to the development of a real estate platform using React.js, Next.js, Node.js, TypeScript, and Tailwind CSS.
- Developed property listing features that allowed landlords to post rental properties and tenants to search available properties.
- Built and improved responsive UI components for listing pages, search flows, and user-facing sections.
- Integrated REST APIs and handled frontend data rendering, form handling, and validation.
- Worked on real-time chat functionality to improve communication between landlords and tenants.
- Improved page performance, UI consistency, and overall user experience through code optimization and bug fixes.

PROJECTS

FireLabs (Confidential-Client-Project) | Private Repo

May 2025 -Present

- Built a secure admin dashboard with role-based access control using Next.js and TypeScript.
- Implemented authentication using AWS Cognito with JWT-based session handling.
- Worked on multi-factor authentication and secure user access flows.
- Integrated DFNS SDK for crypto wallet operations, transaction approvals, and key management.
- Developed modules for transaction management, audit logs, and wallet-related workflows using REST APIs.

React Native Mobile App - FireLabs & Whips(Confidential) | Private Repo

Jan 2025 - April 2025

- Developed a cross-platform mobile application using React Native and TypeScript with Redux Toolkit for state management
- Built app screens for lead capture, QR-based customer engagement, and contact management workflows.
- Integrated REST APIs and Firebase services for authentication, data handling, and app functionality.
- Improved app performance, responsiveness, and user experience across mobile devices.

Real Estate Platform(To Let Globe) GitHub

Jul 2024 - Dec 2024

- Developed features for a real estate platform supporting property listing and property search for landlords and tenants.
- Built and integrated RESTful APIs and dynamic UI components for a smooth user experience.
- Worked on real-time chat functionality for landlord-tenant communication.
- Improved responsive design, page performance, and overall user experience.
- Fixed bugs and collaborated with the team during the internship period.

CERTIFICATIONS & ACHIEVEMENTS

- **AWS Certified Cloud Practitioner** - Amazon Web Services (June 2025) | Credential ID: ESJWXNSS8SNZ
- **Data Mining** - NPTEL
- **Generative AI** – Hands-on experience with OpenAI APIs, prompt engineering, and AI-based application development
- **Top 5% Global Rank -GFG Weekly Contest** | Consistently ranked in top 5% with 400+ problems

EDUCATION

B.Tech in Computer Science

Aug 2020 - June 2024

Chandigarh University | CGPA: 7.93/10.0
